

Molly Shoichet Symposium on Innovation in Regenerative Medicine

*In honour of the appointment of Molly Shoichet to the rank
of University Professor*

Thursday June 4, 2015
Rm. 1105 | Sandford Fleming Bldg. | 10 King's College Rd.
University of Toronto

Program

Session Chairs: Penney Gilbert, Milica Radisic, Alison McGuigan

- 
- 1:10 pm *Welcome & introduction*
Michael Sefton, University of Toronto
 - 1:15 pm *Biomaterials as therapeutic cancer vaccines*
David Mooney, Harvard University
 - 2:00 pm *Activating endogenous neural precursor cells to promote
self-repair of the injured brain*
Cindi Morshead, University of Toronto
 - 2:30 pm *Photoactive hydrogel for cell patterning*
Xudong Cao, University of Ottawa
 - 3:00 pm *Coffee break*
 - 3:30 pm *Bioinspired materials systems to study and regulate stem cell function*
Kevin Healy, University of California, Berkeley
 - 4:00 pm *Towards accelerated medical innovation*
Jeff Karp, Harvard Medical School
 - 4:30 pm *Imagination and innovation: biomimetic hydrogels for 3D cell culture*
Molly Shoichet, University of Toronto
 - 5:15 pm **Reception**
Michael E Charles Council Chamber
Rm. 202 | Galbraith Bldg. | 35 St. George St | University of Toronto

Presented by:

Dept. of Chemical Engineering & Applied Chemistry
Institute of Biomaterials & Biomedical Engineering (IBBME)

UNIVERSITY OF TORONTO
FACULTY OF APPLIED SCIENCE & ENGINEERING
