CAREER OPPORTUNITY

Postdoctoral Research Fellow

We have few postdoctoral research fellow positions for research in exciting areas of biomass conversion and green composites and printed electronics.

Recent Ph.D. (not earlier than 2011) graduates with professional background in one or more of the following disciplines are preferred: Organic Chemistry, Wood Chemistry, Natural Products Chemistry, Polymer Chemistry, Chemical Engineering, and Material Science. Candidates with equivalent combination of professional expertise and education will also be considered. Key attributes for the candidates include being highly motivated, independent, competent, team player, and good written and oral communication skills. The PDF will be part of the interdisciplinary research team and will be expected to interact with industry partners and Canadian and International research networks.

Interested applicants should send curriculum vitae to Stacy Filenkova, Research Administrator, Faculty of Forestry, University of Toronto, 33 Willcocks Street, Toronto, ON, M5S 3B3; e-mail: stacy.filenkova@utoronto.ca.

We thank all applicants for their interest, but advise that only those selected for an interview will be contacted. University of Toronto is an equal opportunity employer.
